DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Crompton on March 23, 2004.

The application has been amended as follows:

On Claim 1, Line 11, after "plane", add – wherein the second portion of the at least two elastic plates intersect in the form of an 'X' at the center of the fastening device.—

On Claim 6, Line 13, after "plane", add – wherein the second portion of the at least two elastic plates intersect in the form of an 'X' at the center of the fastening device.--

On Claim 11, Line 17, after "plane", add – wherein the second portion of the at least two elastic plates intersect in the form of an 'X' at the center of the fastening device.—

Please cancel Claims 16-22.

Allowable Subject Matter

2. Claims 1-15 are allowed.

The references fail to teach, disclose, or suggest, either alone or in combination, the second portion of the at least two elastic plates intersect in the form of an 'X' at the center of the fastening device and in combination with the rest of the limitations in the base claims.

Applicant's arguments (Pages 7-8) with respect to the Obata reference have been fully considered and are deemed persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
